

CORONA *Test Report* *16 Sept 1965*
Approved For Release 2004/06/29 : CIA-RDP85B00803R000200020012-8
Recommended by DD/S&T - as part of the
input/org. for CORONA under the new Agreement. 25X1

SPACE INTELLIGENCE PANEL - Advisory to the DCI

Purpose:

On the recommendation of Dr. Wheelon, established to review Soviet manned space programs; lunar and interplanetary activity; meteorological, and scientific payloads; programs with potential military significance; and over-all capability for future space efforts. Also to review non-Soviet space programs in all other countries, specifically the likelihood of space programs [redacted]

Period of Activity ~~(1965-1970)~~ ^{Dec 1965} -

25X1

Establishment approved by the DCI, Admiral Raborn, 13 September 1965. Meets twice a year with one meeting being devoted to consideration of the contributions to NIE-11-1 (The Soviet Space Program), and reports significant findings and recommendations to the DCI. Still active in 1970.

mtg. in Feb. 66
Panel felt
Soviets were
about as
W/US in "moon
race"
Chairman: was asked by W/H to consider & give first eval. of
Sov. Space program - Consensus re: lunar program
(later, Bunker-Ramo Corp.)
Dr. Simon Ramo, President, Thompson-Ramo-Wooldridge (TRW) had
Members:

- ~~Prof. H. Guyford Stever, Carnegie-Mellon University~~
- ~~Dr. Joseph F. Shea, Raytheon Corp.~~
- ~~Dr. Wm. H. Pickering, Jet Propulsion Laboratory~~
- ~~Dr. Benjamin P. Blasingame, General Motors Corp.~~
- ~~Dr. Allan F. Donovan, Aerospace Corporation~~
- ~~Maj. Gen. James T. Stewart, Office of the Secretary of the Air Force~~
- ~~Dr. Charles W. Mathews, NASA~~
- ~~Dr. Frederick C. Oder, Lockheed Space Systems Division~~
- Panel change due to absence of manned flight activity by Soviets & no testing by them of new, longer range space craft.*
- DR Raymond Lewis Bisplinghoff, NASA*
- "Werner R. Kiehn, Aerojet General Corp.*
